USB 2.0 to VGA Adaptor

Details correct on: 14/11/2013

Notification	
Product Code	NLUSB2-VGA
Short Description	USB 2.0 to SVGA HD15 adaptor with cable
Full Description	The USB 2.0 to VGA adapter enables you to connect additional display devices (CRT/LCD, monitor, projector) to your desktop or notebook computer. The connected display can act as a mirrored or extended desktop of the main display on your PC. The flexibility of the USB 2.0 technology saves the need to open the computer or struggle with compatibility issues related to the VGA card.
